

Education

Bachelor of Technology in Computer Science and Engineering, JNTUH. <i>Vardhaman College of Engineering, Shamshabad</i>	2023-Present <i>CGPA: 9.05</i>
Intermediate in MPC, Telangana Board of Intermediate Education (TGBIE). <i>Narayana Junior College, V.V.Nagar, Kukatpally</i>	2021-23 <i>CGPA or Percentage: 96.7</i>
Tenth Class, Telangana Board of Secondary Education (BSET). <i>Annu's Academy High School, Wanaparthy</i>	2021 <i>CGPA or Percentage: 10.0</i>

Internships

Backend Developer Intern <i>Kravix Tech (Remote)</i>	Feb 2026 – Present
- Developed backend modules for MelodyMeet using Node.js, Express.js, PostgreSQL, Redis, and Socket.IO. - Built RESTful APIs for authentication, user management, messaging, and session handling. - Implemented real-time communication features using WebSockets and event-driven architecture. - Designed database schemas and optimized queries for scalable application performance. - Contributed to microservice-based backend development and system integration.	

Projects

MelodyMeet	2026
- Developed backend services for a real-time social communication platform using Node.js, Express.js, PostgreSQL, Redis, and Socket.IO. - Built RESTful APIs for user authentication, session management, messaging, and user presence tracking. - Implemented scalable microservice architecture and integrated real-time communication features using WebSockets.	
Adaptive E-Learning System	2026
- Developed a personalized adaptive e-learning platform using Python, Flask, SQLite, HTML, CSS, and JavaScript. - Implemented competency graph modeling and mastery prediction logic to dynamically adapt learning paths based on student performance. - Designed mastery-based progression and personalized content recommendation mechanisms to enhance learning outcomes.	
Mental Wellness Companion	2025
- Developed a responsive mental wellness web application using HTML, CSS, JavaScript, and MySQL. - Implemented mood tracking, journaling, and resource recommendation features to support user well-being. - Designed an intuitive user interface and dashboard for monitoring emotional trends and accessing wellness resources.	

Technical Skills

- **Programming Languages:** Java, Python, C, C++
- **Backend:** Node.js, Express.js, REST APIs, Socket.IO, Redis
- **Frontend:** React, HTML, CSS, JavaScript
- **Databases:** MySQL, PostgreSQL, SQLite, MongoDB
- **Tools & Platforms:** Git, GitHub, VS Code, Postman
- **Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Engineering

Certifications

– Salesforce Certified Agentforce Specialist , Salesforce	December 2025
– Oracle Cloud Infrastructure 2025 - AI Foundation Associate , Oracle	October 2025
– Cambridge Linguaskill Business English Proficiency Assessment (CEFR Level: B2)	December 2025
– Google AI Essentials , Google (Coursera)	July 2025
– Design and Analysis of Algorithms , NPTEL	Jan – March 2025
– Certificate of Appreciation - Case Study Completion , MassMutual India	October 2025

Achievements

- Published research paper titled “Mental Wellness Companion,” proposing technology-driven solutions for mental health support.
- Solved 200+ Data Structures and Algorithms problems across LeetCode and other coding platforms.
- Selected for Smart Interviews training program through competitive internal evaluation.
- Cleared institute-level screening round for Smart India Hackathon (SIH), advancing among top-performing teams.

Extracurricular Activities

Participant – “A Day as a Cadet” Program, National Cadet Corps (NCC)	2025
Participated in leadership, teamwork, and discipline-focused cadet training activities.
